VOTES

Candidate endorsements and proposition recommendations by the BIAPAC and BuildSD Pac are determined after extensive interviews by the Political Communications Committee and candidate responses to core industry issues including: the land use and permit process, redevelopment and urban infill, housing affordability and infrastructure financing.

The endorsed candidates possess the skills and effectiveness necessary to excel in their desired office and have committed to ongoing communication with the industry on policy issues up for consideration.

** Denotes both candidates have a history of industry support and would serve their constituents and the business community well.*

Paid for by the Building Industry Association Political Action Committee
